Address:	Haifa

Listing details

Description:

Search by IP addresses

Every day, many of us become victims on the Internet. We buy expensive goods on "left" sites. Or we enter personal data on a fake site (identically duplicating the site you need), including card data from which funds are debited. Or we invest somewhere that guarantees a high %. There are many options and new ones appear every day. Not to mention fortune tellers and psychics.

Unfortunately, during the corona, such figures have increased tenfold. And the police do nothing, since they are usually in another country.

What we do:

1. We will help you find these people by IP addresses, phone and billing (call details), through companies, websites, etc.
2. Check the company you dealt with. Country of registration, who the company is registered to and who the director is, the bank account where you sent the money and where the money went from the account.
3. Legal assistance is also possible. Drawing up a statement and submitting it to the police of the country where you are. In order to avoid inaction of the local police, for whatever reason, we will use additional tools. Like, for example, Interpol. This will also close entry to many countries and will not receive new visas if you want to do something unpleasant to them.
4. It also offers searching for people and checking counterparties in almost all countries. Collecting information about their activities (work, company-owned), real estate, accounts, etc.
